

Microsoft Viva Learning

What is Viva Learning?

Viva Learning helps your organization and employees grow by giving them easy access to information, encouraging continuous learning, and providing them with a knowledge hub that grows and improves over time!

Discover

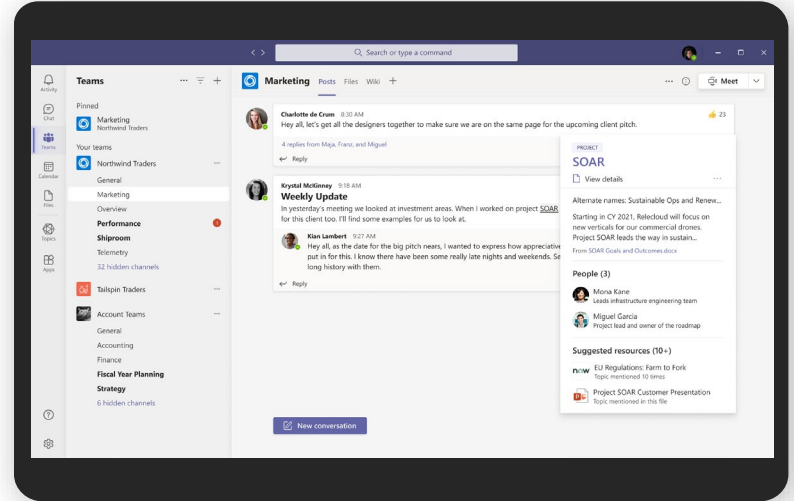

Access learning modules from LinkedIn Learning, 3rd parties, Microsoft Learn, and your organization's own custom content with Viva Learning.

Centralize

Explore, complete, and share learning modules all in one location: **Microsoft Teams**.

Align

Curate, assign, and track learning that supports business goals and objectives.

How WM Can Help!

Let us walk you through the art of the possible! Together, we can identify and prioritize key business scenarios and help solve your unique challenges. At **WM Reply**, we can demonstrate opportunities to customize and extend your Teams workspace using the power of automation with our extensive solution development experience.

Advisory support for technical and adoption issues, roadblocks or anything across M365 and Microsoft Viva

Includes governance support, solutioning, adoption, training, communications, etc. Can apply to Yammer, Teams, SharePoint, Connections, Topics, Learning, Insights.

We can customize the effort in days/hours and cost to fit your needs – support can be used as needed over time

Contact us today to get started!
