

Microsoft Viva Insights

What is Viva Insights?

Viva Insights helps employees be at their best by introducing personal tools, tips and reminders throughout their workday!

Focus

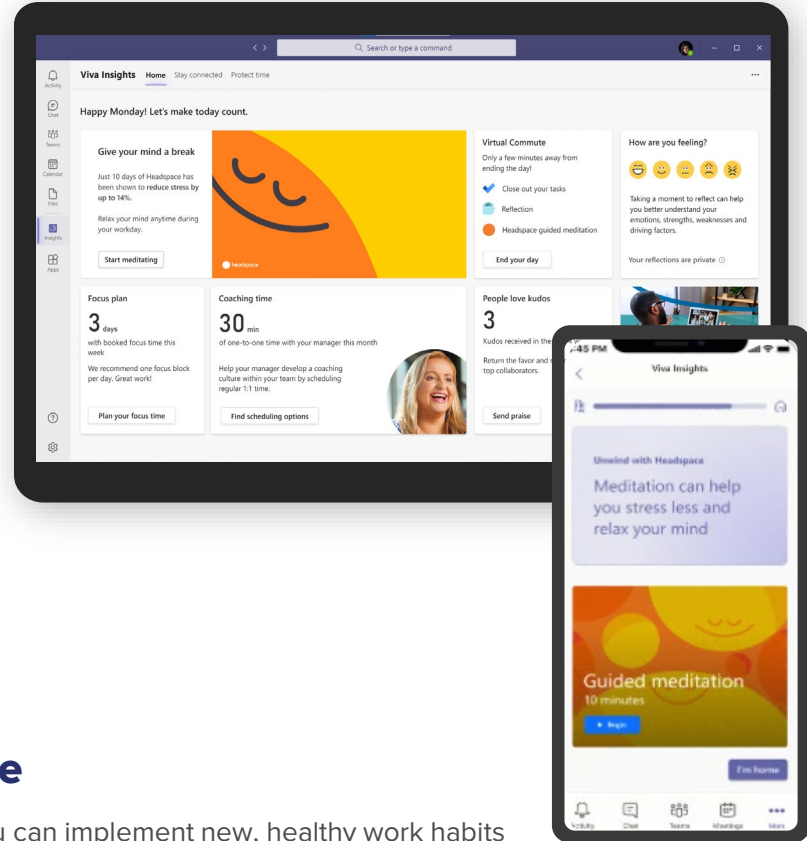

Book focus time into your weekly schedule to concentrate on important work and help you cross items off your to-do list!

Reflect

Reflect on your workweek, share confidential feedback with your organization, and take time for headspace to reduce stress.

Encourage

See shout-outs from your colleagues and easily send praises to others for a job well-done!

Helping Managers Make a Difference

Insights provides de-identified feedback and suggest how you can implement new, healthy work habits from world-class resources, such as Harvard Business Review.

Insights empowers managers to foster a healthy environment, drive successful teams, and make a real, positive impact on their workplace!

How WM Can Help!

Let us walk you through the art of the possible! Together, we can identify and prioritize key business scenarios and help solve your unique challenges. At **WM Reply**, we can demonstrate opportunities to customize and extend your Teams workspace using the power of automation with our extensive solution development experience.

Advisory support for technical and adoption issues, roadblocks or anything across M365 and Microsoft Viva

Includes governance support, solutioning, adoption, training, communications, etc. Can apply to Yammer, Teams, SharePoint, Connections, Topics, Learning, Insights.

We can customize the effort in days/hours and cost to fit your needs – support can be used as needed over time
